

San  
Ditan®

Animal care Unguentum

PanaZym  
**Vulnerasan®**

Functional ingredient formulation  
for strained/damaged skin

- Antimicrobial/Deodorant
- Nourishing through the proteolytic degradation of defective or possibly necrotised tissue parts
- Promotes natural renewal processes

Formulations for professionals  
demanding peak performance

## Ingredients (INCI)

Polysorbate 80, PEG-hydrogenated castor oil, lanolin, zinc oxide, propolis extract, benzalkonium bromide, allantoin, retinyl palmetate (vitamin-A-palmetate), tocopheryl acetate (vitamin-E-acetate), pancreatinum (with protease, amylase, lipase, trypsin (2,6 FIP-U/ml, chymotrypsin (51 FIP-U/ml), papain (2,8 FIP-U/ml), P-chloro-m-cresol

## Product characteristics

SanDitan® PanaZym Vulnerasan® is an Functional ingredient formulation with enzymes, minerals, beeswax and vitamins for the care, cleansing and regeneration of highly stressed, strained skin areas.

SanDitan® PanaZym Vulnerasan® contains microfine particles in a matrix with good distribution and adhesion properties. Long-known, carefully coordinated, dermatologically significant, actively caring and at the same time skin-cleansing substances characterise protective and caring competence in a special way. The same applies to the vitamins contained and their cell protection function.

## Functions

### Care:

- through proteolytic degradation of defective and possibly necrotised tissue parts for a smooth, supple functional skin

### Cleansing:

- removal (cleansing/deodorant) of breeding grounds for dirt/damaging bacteria and fungi

**Protection against moisture:**

- forms a protective layer
- prevents the skin from coming into contact with impurities or moisture

**Skin protection:**

- good adhesion on damaged skin, thus protecting against soreness
- When applied to wound bandages, it prevents them from sticking

**Regeneration:**

- by promoting the natural renewal processes in skin defects of any kind and origin, e.g., as they may occur after abscesses, abrasions, bites or surgical interventions

## Application

Apply a sufficient amount to the intended regions and spread carefully. The product contains no inhibitors, does not burn and does not etch. It can therefore be applied several times a day without any problems.

## Hinweise

For external use only.

Do not store above 20° C and protect from light.

## Package sizes

10 ml doser

150 ml can
